

CL-057型推力传感器**Double Shear Beam Weight Sensor****1.工作原理**

CL-057型称重传感器采用金属应变原理，将重量值转换成电信号。

2.特点

精度高、温度特性好，稳定性好，单台支撑面积可达400 × 400。

3. 应用范围：

适用于料斗称、仓储称、地上衡等。

1.Working principle:

CL - 057 type thrust sensor adopts metal strain principle, force measurement through thin elastic elements

2. Characteristic:

Low installation, fully sealed, suitable for bad environment

3. Application:

Applicable to the bunker, charging bucket, material weighting, truck scale, etc
